Emre Can Kadirhan

kadirhanemreemre@gmail.com | (512)-800-2782 | LinkedIn: emre-kadirhan | GitHub: ruff1e

SKILLS

Programming Languages: Python**,** Java, JavaScript, TypeScript, C, C++
Frameworks: Django, React, Spring Boot, Next.js
Tools and Technical Skills: Git/GitHub, Docker, CI/CD, AWS, Linux/Unix, Postman, PyTest, PostgreSQL, MySQL, SQLite, Prisma, Redis, MediaPipe

PROJECTS

SwingVision - AI Golf Swing Analyzer | Next.js, Python, PostgreSQL, Redis, MediaPipe, BetterAuth, Prisma| GitHub

- Built a Python worker using OpenCV and MediaPipe to overlay real-time AI pose skeletons on user-uploaded golf swing videos for biomechanical analysis
- Integrated Redis based async task queue to offload video processing, keeping web response times under 200ms during heavy load
- Architected a PostgreSQL (Neon) schema to manage user accounts, video metadata, and professional coaching feedback with relational integrity
- Implemented role-based access control using Next.js and BetterAuth, supporting separate user and admin dashboard experiences

E-Commerce Auction Platform | Python, Django, SQLite, StripeAPI

- Built a full-featured auction platform with user authentication, real-time bid validation, category filtering, watchlists, and buyer/seller commenting
- Integrated Stripe API for secure payment processing on completed auction transactions

Student Management System | Java, SpringBoot, MySQL, Postman

- Architected a full-stack CRUD application with Spring Boot and MySQL to manage student academic records and personal data
- Designed and tested 15+ RESTful API endpoints using Postman, covering full request/response lifecycle validation
- Implemented multi-parameter search and dynamic sorting, reducing administrative data retrieval time

EXPERIENCE

TQueue Software StartUp **Mugla, Turkiye**
Software Engineer Intern *June 2024 – August 2024*

- Optimized backend queries and refactored inefficient code paths, improving performance and scalability of core services
- Refactored the customer management module to a more modular, service-oriented architecture, reducing technical debt and improving feature delivery speed
- Participated in code reviews for a team of 3+ engineers, providing constructive feedback that improved code quality and reduced review cycle time

EDUCATION

Arizona State University – Tempe, AZ B.S. in Computer Science | Expected Graduation: May 2027 | **GPA:** 3.86
The University of Texas at Dallas – Richardson, TX B.S in Computer Science | 2022 – 2025
